

CANAL TERMINAL COMPANY

HEALTH, SAFETY, ENVIRONMENTAL & SECURITY POLICY

Canal Terminal Company is a bulk liquid storage and distribution facility committed to:

- Protecting the health and safety of our employees, contractors, and neighbors,
- Protecting the environment by minimizing our impact, and
- Providing a safe and secure workplace.

These are core values of the highest priority starting at the top of the company running throughout the organization and are reflected in our daily operations.

In pursuit of continual improvement, we have established, monitor, evaluate, and report on the following goals:

- Zero injuries,
- Zero health, safety, environmental and security incidents,
- Reduce air emissions and wastes, and
- Minimize hazards, risks and impacts to the greatest extent practical.

These goals are attainable because everyone at Canal Terminal Company is committed to the continual improvement of our health, safety, environmental and security performance.

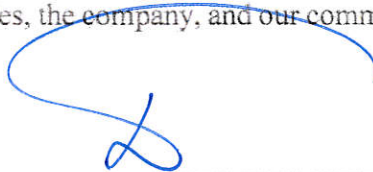

We are committed to complying with applicable federal, state and local regulations, company requirements, and other applicable requirements to which Canal Terminal Company is subject or subscribes.

We will work in partnership and maintain an open dialog with our employees, contractors, customers, suppliers, neighbors, and other stakeholders to enhance the health, safety, environmental, and security performance of our operations.

We will actively collaborate with governmental authorities and other stakeholders in creating responsible health, safety, environmental, and security policies and procedures.

Canal Terminal Company is committed to the Responsible Care Guiding Principles.

Protecting the health and safety of our employees and the environment is good business. It is a benefit to our employees, stakeholders, our families, the company, and our community to work safely with no injuries or incidents.

Delbert Wilkins
Vice President Terminal Operations
